### SJB Interiors creates a mini Italy at Spiedo

Last month saw the opening of [Spiedo](#), the new restaurant from chef Alessandro Pavoni, owner of the famous Ormeeggio at the Spit who graced our screens on MasterChef this year. The newest addition to the prestigious Level 6 dining precinct of Westfield Sydney, the space was created by [SJB Interiors](#), the design team behind many of Sydney's most recognisable venues. The Sydney team, led by Director Kirsten Stanisich, have created a space that feels like a sun-bathed outdoor Italian piazza that enables diners to completely tune out the bustle of the shopping centre below. Combining this chic European atmosphere with a menu of dishes native to Pavoni's home town of Lombardy. Spiedo is an authentic touch of Italy right in the middle of Sydney, a dining destination you won't want to miss. So when you pop in to enjoy the award winning food, take time to also enjoy our clients stunning interior fit out.
